EXPERIENCE

- Full Stack Developer Intern | Oddiant Techlabs** Oct 2025 - Dec 2025
Tech: React.js, REST APIs, SQL, Postman, Git
 - Maintained responsive **frontend interfaces** using **React.js**, focusing on reusable components, routing, and improved user experience.
 - Integrated and tested **REST APIs** for seamless communication between frontend and backend systems, ensuring accurate data flow across modules.
 - Worked on **database operations** including writing SQL queries, validating records, updating data, and maintaining consistency across application features.
 - Assisted in debugging, feature enhancements, and sprint-based task execution while collaborating with cross-functional teams for timely project delivery.

SKILLS

- **Programming Languages:** Java, Python, SQL, Javascript
- **Core Skills:** OOPS, DBMS, OS, Computer Networks, Linux Systems, Data Structures & Algorithms
- **Frameworks & Libraries:** Spring Boot, Flask, Streamlit, ReactJS, Pandas, Numpy, Matplotlib, PyTorch, HuggingFace
- **Tools & Databases:** Git, GitHub, PostgreSQL, MongoDB, Postman, Excel, Google Analytics
- **Soft Skills:** Leadership, Teamwork, Public Speaking, Event Management, RCA, Communication

PROJECTS

- Financial Dashboard Backend** Apr 2026
Java, Spring Boot, Spring Security, JWT, MySQL 
 - Engineered a **financial dashboard backend** using **Spring Boot** with **18+ REST APIs** covering authentication, user management, records, and analytics modules.
 - Integrated **JWT-based authentication** and **RBAC** with **3 access levels** (Admin, Analyst, Viewer), securing **120+ simulated user sessions**.
 - Developed an **income and expense tracking system** supporting **10+ categories** and managing **2,000+ transaction entries** with full CRUD operations.
 - Optimized **MySQL and JPA queries**, reducing average API response time from **480 ms to 220 ms** through indexing and efficient joins.
- RapidChat** Jan 2026
Spring Boot, HTML, WebSocket 
 - Architected a **real-time chat application** supporting **100+ concurrent users**, enabling seamless **bidirectional communication** with average message latency below **200 ms**.
 - Implemented **WebSocket-based messaging** using **Spring Boot** to maintain **persistent client server connections**, reducing communication overhead by approximately **40%** compared to HTTP polling.
 - Designed and integrated **10+ REST APIs** for **user authentication, session management, and chat room operations**, working alongside WebSocket endpoints.
 - Managed **connection lifecycle events** and implemented **real-time message broadcasting** to reliably support **50+ active user sessions** with stable message delivery.
- HireSense** Nov 2025
Generative AI, Spring Boot, Python, NLP 
 - Built an **AI-powered resume analysis system** processing **100+ resumes** with automated skill extraction and keyword matching.
 - Used **NLP pipelines** to extract **25+ entities** (skills, education, experience), achieving **90% parsing accuracy**.
 - Incorporated **Generative AI models** to generate **3–5 actionable resume improvement suggestions** per user.
 - Scaled **Spring Boot REST APIs** to handle **200+ requests/min** for resume upload, analysis, and scoring.

ACHIEVEMENTS

- Led a national level Hackathon, **Hack the Hills**, attracting participation from 850+ students
- Played a key role in organizing **Mridang 2k25**, coordinating artists and large-scale crowd operations for a flagship cultural fest
- Solved **300+ Data Structures and Algorithms (DSA) problems** across platforms Codolio 
- Earned a **Data Analyst certification** from **Tata Group** and **Deloitte**, gaining hands-on exposure Certificate
